ATTN:

SUBJECT: Personnel Management (U)

1. (S) The Army is currently in the process of establishing the Military Intelligence Officer Excepted Career Program which was approved as a result of the Norris Board findings. This program envisions creation of a select group of officers who will receive continuous assignments in the clandestine and counterintelligence fields.

2. (C) The United States Army Administrative Survey Detachment (USAASD) at Fort Holabird, Maryland, has been designated by the Assistant Chief of Staff for Intelligence as the program administrator. It is planned to utilize a five (5) man recruiting staff to conduct spotting, screening, and nomination of officers for the program.

3. (S) Although the Norris Board and the Kaiser Committee conferred with CIA representatives on personnel management, it is now proposed that arrangements be made for a representative of USAASD, Major James F. Logan, MI, 05206484, to discuss problems of personnel screening and selection for case officer duties with appropriate CIA personnel. Specifically, assistance and guidance by CIA is requested in refinement of the Army psychological testing program and further development of our psychiatric evaluation system.
